competitive exams. Sericulture was first introduced into China by Hoshomin, the Queen of China. For a long time sericulture was considered to be a national secret by the Chinese and its industrial technique was not known in other countries. Later, it was introduced into Europe and Japan by smuggling the secrets from China through travelling monks.

ECONOMIC ZOOLOGY PEARLCULTURE -3
So, apiculture or beekeeping is the care and management of honey bees for the production

of honey and wax. In this method, bees are bred commercially in apiaries, an area where a lot of beehives can be placed. Usually, apiaries are set up in areas where there are sufficient bee pastures - such as areas that have flowering plants.

Apiculture - Meaning and Importance Of Apiculture

The present title Economic Zoology deals with the Animals which are very useful to the Economy of man. Though each and every individual has its own importance of Nature but a few of them are getting too much

importance. Fisheries, Sericulture, Apiculture and Lac culture have already established their great economical and commercial values.

ZOOLOGY APICULTURE UNIT I UNIT II
One of the finest discoveries is our knowledge regarding the procurement of honey collected by honey bees. Care and management of honey bees on a commercial scale for the production of honey is called Apiculture or Bee Keeping. The word ‘apiculture’ comes from

the Latin word 'apis' meaning bee. Bees are reared in apiaries that are areas where a lot of bee hives can be placed.

Apiculture - BrainKart

Sericulture Silk is Nature's gift to mankind and a commercial fiber of animal origin other than wool. Being eco-friendly, biodegradable and self-sustaining material; silk has assumed special relevance in present age. Sericulture is an agro -based industry, the term which denotes commercial production of silk through silkworm rearing.
