Dell Dimension 4600 Memory RAM Upgrades - FREE Delivery ...

Dimension 4600. Although the memory can be installed one module at a time, the best performance comes from using matched pairs of modules. The Dxxxxxx parts are only listed for the Dell OEM program. DO NOT SELL If your model uses the Pentium 4 with a 800MHz Front Side Bus (FSB) you must use the PC3200 parts.

Memory RAM & SSD Upgrades | dell | dimension / dimension ...

You can upgrade your Dell Dimension 4600 Computer to up to a maximum memory capacity of 4.0 GB Memory. How many total memory slots to install memory? The Computer has 4 sockets (2 banks of 2)to install memory, already with basic factory installed standard memory installed.

Dimension 4600 Memory Upgrade - Dell 4600 Dimension ...

I am looking to upgrade the memory on our computer and intend to install 1 GB since we currently run 512 mb in two slots. I understand that it may be best to purchase 512 x 2 rather than 1 x 1GB? Could you anyone recommend a particular brand - a freind tells me Kingston is best? Hoping for a prom...

Dell Dimension 4600 - Memory Upgrade - Dell Community

I have a 4600 that has 256 MB of Ram. I want to upgrade it. Can I remove the memory I have and upgrade to 4 GB? I have a total of four slots with two being empty. Please help. Thanks

dimension 4600 memory upgrade? - Dell Community

The Dell Dimension 4600 needs a specific type of memory module to function properly. For reference, we have listed the technical specs for your Dimension 4600 to the left. If you used the Memory Finder on Upgrade Memory, the memory you see here is 100% guaranteed to work in your Dell Dimension 4600 or you will receive a full refund.

Guaranteed Dell Dimension 4600 Computer Memory Upgrades ...

Re: Dimension 4600 memory upgrade The other components are the original when we purchased it back in 2005. CPU - Intel Pentium 4 Processory 530 with HT Techonology (3.0 Ghz, 800 FSB)

Dimension 4600 memory upgrade - Dell Community

Buddy a straighforward reply to this is that your Dell Dimension 4600 machine supports memory of 333 and 400 MHz frequency that is PC2700 and PC3200. You can install either of 128MB, 256MB, 512MB, 1GB of either PC2700 or PC3200, Unbuffered, NON-ECC RAM. The make of the RAM is not a restriction.

Dimension 4600 memory upgrade - Dell Community

Re: Dimension 4600i Memory Upgrade Since your current memory is clocked at 333, your new memory will also be clocked at 333. The memory controller will always clock the memory at the rate of the slowest module installed. I'm guessing that you have a processor that uses an FSB of 533 MHz.

Dimension 4600i Memory Upgrade - Dell Community

All the 4600 models will take a socket 478 CPU at 800 MHz, up to 3.0GHz and the later model 4600 will take the 3.2GHz and 3.4GHz processors, this does not offer much of a boost over the 3.0GHz. The SL7E6 should be compatible. If you have PC2700 memory, when you install a Prescott, you may want to replace it with PC3200.
