About Rules, Rulesets, and Dictionaries. Policy Controller uses rules to select policy profiles to apply to subscribers. You create rules by using the Rule Editor tab of the Policy Controller Policy Designer interface. A knowledge of programming with a third-generation programming language is very helpful for understanding the Rule Editor tools and creating rules.

Creating Rules and Rulesets - Oracle
Draw the entry and exit processes to the value stream (far right and far left portions of the page). Step 3. Create a map shell by drawing the processes (beginning from the furthest downstream point) between the entry and the exit processes. Step 4 . List all the attributes of the processes. Step 5. Add queue times between each process.

Value Stream Mapping Tutorial | Value Stream Mapping Explained
To say the Internet is a crowded space is like saying there are a lot of stars in the sky, sand on the beach, or atoms in a cell. According to Internet Live Stats, there are more than 1.9 billion websites in existence, more than 3.5 billion Google searches every day, and roughly 350,000 tweets sent every minute.. Capturing readers' interests in this exploding digital universe can be ...
