the L322 replaced the P38A in 2001. The first RR to be built on a monocoque chassis, the L322 moved the marque further towards full-blown luxury while managing to retain the off-road prowess that lies at the heart of the marque's iconic status. Engineered initially to accommodate BMW's range of V8 engines, it was only ever available with a range of five-, six- and eight-speed automatic gearboxes.
