Thomas Lewis Fari Amini and Richard Lannon, A General Theory of Love. 5 likes. Like “ All of us, when we engage in relatedness, fall under the gravitational influence of another ’ s emotional world, at the same time that we are bending his emotional mind with ours. Each relationship is a binary star, a burning flux of exchanged force fields, the deep and ancient influences emanating and ...

A General Theory of Love Quotes by Thomas Lewis

THE TRIANGULAR THEORY OF LOVE Sternberg (e.g., 1986, 1998) conceptualized love in terms of three basic components that form the vertices of a triangle: intimacy, passion, and decision/commitment (Figure 1.1).

General Theories of Love - SAGE Publications Inc

From the book A General Theory of Love the authors define the term: Within the effulgence of their new brain, mammals developed a capacity we call limbic resonance — a symphony of mutual exchange...

A General Theory of Love, Part 2: The Science of Attraction

In A General Theory of Love, three psychiatrists take a scientific look at the phenomenon of love. Arguing that our emotional experience in adulthood is profoundly influenced by our childhood relationships, the authors suggest ways to undo this emotional “ programming ” and establish healthier relationships with friends and romantic partners.
