This manual contains instructions on how to install and commission the softstarter. The manual covers procedures for mechanical and electrical installation, and installation of communication devices. It also covers energizing, setting, and configuration and verifying settings. For quickest possible start read Chapter 2 “Quickstart”.

~~Softstarters—ABB~~

The PSR range is the most compact of all the ABB softstarter ranges, thereby making it possible to fit many devices into the same enclosure. The system concept with Manual Motor Starters provides a far more compact starting solution than for example a star delta starter. Flexible mounting PSR softstarters from 3 to 45 A are possible to mount on ...
