The ICD-10-CM and ICD-10-PCS Official Guidelines for Coding and Reporting, American Hospital Association's (AHA's) Coding Clinic for ICD-9-CM and ICD-10-CM/PCS, and the American Medical Association's (AMA's) CPT Assistant are considered the official coding resources for coding professionals. These references can be used to respond to coding audits and claim denials.

~~Developing Facility Specific Coding Guidelines | Journal ...~~

Introduction. Coding is recognized as one of the core health information management (HIM) functions within healthcare. Due to the complex regulatory requirements affecting the health information coding process, coding professionals are frequently faced with ethical coding and coding-related challenges. The Standards of Ethical Coding are important established guidelines for any coding professional and are based on the American Health Information Management Association's (AHIMA's) Code of Ethics.

Training and Resources. Whether you are new to the coding profession or an experienced coding professional who wants to demonstrate your mastery of coding proficiency, AHIMA provides education and training, certification (CCA® and CCS-P® credentials), and other valuable resources to support your lifelong learning and continued advancement.

~~Outpatient Coding Education & Training | AHIMA~~

Certified Coding Specialist (CCS®) Coding specialists are skilled in classifying medical data from patient records, often in a hospital setting but also in a variety of other healthcare settings. The CCS credential demonstrates a practitioner's tested skills in data quality and accuracy as well as mastery of coding proficiency. The CCS certification is a natural progression for professionals experienced in coding inpatient and outpatient records.
