Book review of Amped by Daniel H Wilson

As he did in Robopocalypse, Daniel Wilson masterfully envisions a frightening near-future world. In Amped , people are implanted with a device that makes them capable of superhuman feats. The powerful technology has profound consequences for society, and soon a set of laws is passed that restricts the abilities - and rights - of "amplified" humans.

Wilson

Amped by Daniel H. Wilson: 9780307745491 ...

Amped is a near future story that tells of the post-human singularity event, a world where humans are implanted with upgrades that make them capable of super-human feats. Fear of that which is different rears its ugly head and before long a new set of laws is put into place restricting the rights of these "amplified" people.
