Anatomy And Physiology

~~Human Anatomy and Physiology
Study Guide | UIC Online ...~~

The study of the different parts of the body, what they do, and where they're located, constitutes anatomy. Think of it as a kind of geography of the human body. Physiology is the study of how all the different organs, muscles, bones, and every other part of the human anatomy work together to sustain life and health.

~~UExcel Anatomy & Physiology:
Study Guide & Test Prep ...~~

Anatomy and physiology are perhaps the most fundamental areas for a nurse to study.

Anatomy is the area of study in between biology and medicine that considers the structure of the body.

Physiology is the scientific study of how the body and its organs and cells work.

Understanding the location of parts of the human body
