The AH-64 Apache is an attack helicopter that first flew in 1975 and has been produced since 1984. It was designed by Hughes Helicopters, but that later became McDonnell Douglas, which later became Boeing. It is designed to attack things on the ground to help soldiers. To do this, it can carry 16 AGM-114 Hellfire missiles, along with rocket pods, and a 30mm chain gun that can fire 625 rounds per minute. It can carry 1,200 bullets. It can also carry missiles like the AIM-9 Sidewinder to shoot down
