Amazon.com: macbook pro 15 mid 2012

However, it is designed for two iPhones or iPads. If you are using a 12" MacBook or 13" MacBook Air you may gain minimal benefit from it but the battery is fairly small in this device to get any gain for a MacBook. If you are using a 13" or 15" MacBook Pro they require 60W and 87W each so this device would not be for those users.
