Application

Engine In

Peoplesoft

Example

PeopleSoft

Application

Access Free Application

Engine does not generate SQL or PeopleCode. It executes the SQL and PeopleCode that you include in an Application Engine action as part of your program.

PeopleSoft
Application
Engine is

Access Free Application

Engine In for
batch processing
where you have
data that must
be processed
without user
intervention—for
example,
calculating
salaries in
payroll
processing
(although not
printing the

Access Free

Application

checks) . In

Peoplesoft

Understanding

PeopleSoft

Application

Engine

Running

PeopleCode from

Application

Engine steps

enables you to

complete some

simple

operations

Access Free Application

without having
to use SQL. For
example, to
assign a literal
value to an
Application
Engine state
record field
using SQL, you
may have issued
a statement
similar to this
one: %SELECT (MY_
AET.MY_COLUMN)

Access Free Application

```
SELECT  
'BUSINESS_UNIT'  
FROM  
PS_INSTALLATION
```

Programs

Using PeopleCode
in Application
Engine Programs
- Oracle

Application
Engine programs
are PeopleSoft's
batch processing
technology. They

Access Free Application

are developed in
application
designer and
consist of
blocks of
PeopleCode and
SQL. Application
engine programs
can also use
application
classes,
component
interfaces, XML
publisher

Access Free Application

reports, and
call SQRs and
COBOLs through
PeopleCode.

Application

Engine |

PeopleSoft Wiki

If I have to
provide a
training on
Application
Engine to my co-
workers who have

Access Free Application

never developed
any Application
Engine in
Peoplesoft, I
would use this
blog. Here I am
going to
describe how to
develop a simple
Application
Engine program
covering
Sections, Steps,
Actions, State

Access Free Application

records, Meta-
SQLs, etc. in
their simple
forms using a
simple example.

Basic Steps to
Create an
Application
Engine in

Access Free Application

PeopleSoft ...

Not this example
but any
application
engine which
processes a bulk
of data and runs
for longer time
is a candidate
for parallel
processing. ...
There is already
a view present
in Peoplesoft

Access Free Application

HRMS which
fetches the Max
row for all
active employees
named

JOB_CURR_VW. The
below is the SQL
for this view.

```
SELECT * FROM  
PS_JOB A .
```

PeopleSoft:

Parallel

Processing by

Access Free Application

PeopleSoft
Application
Engine is
designed for
batch processing
where you have a
large (or small)
amount of data
that must be
processed
without user
intervention.
For example, you
can use an

Access Free Application

engine in
program to
update hundreds
or thousands of
employee data
rather than
having to update
each one of them
manually online.

Learning
PeopleSoft
Application
Engine -

Access Free Application

PeopleSoft

Tutorial

Application

Engine is

extremely

powerful when

utilized

correctly. For

example, you can

utilize

functionality

such as

peoplecode, SQL,

Do While, Do

Access Free Application

Until, and Do
Select.

Therefore, you
have the ability
to manipulate
the data just as
you were capable
of doing using
SQL.

Importing Files

PeopleSoft

Career

This allows a sequential processing which is so integral to row by row processing in an Application Engine. While Reselect queries the DB for each iteration and picks up the

Access Free Application

first row
returned by the
select statement
and puts it in a
cursor. Thus, at
any given point
of time there
will be only one
row in the
cursor of a
Reselect type Do
Select ...

PeopleSoft Blog:

Page 37/48

Access Free Application

Difference
between do-
while, do-when,
do ...

For example, if both a Do When and PeopleCode action exist within a given step, then Application Engine always executes the Do When action

Access Free Application

first. Image:
Action execution
hierarchy The
following
diagram shows
the sequence and
level of
execution for
each type of
action.

Application

Engine -

Peoplesoft

Examples

PeopleSoft

Application

Engine is a

PeopleTool used

Access Free Application

to carry out
background SQL
processing.
Application
Engines are
neatly
structured into
blocks and offer
an alternative
to writing COBOL
or SQR programs
for background
SQL processing.
Application

Access Free Application

Engine Program
Types.

Application

Engine has five
types of
programs.

PeopleSoft

Application

Engine -

PSoftSearch

PeopleSoft

Application

Engine supports

Access Free Application

up to 99 levels
of nested Call
Section actions.
For example, the
first called
section can call
a second, which
can call a
third, and so
on, up to 99
calls.
