Architectural Graphics is
the classic bestselling
reference by one of the
leading global authorities
on architectural design
drawing, Francis D.K. Ching.
Now in its sixth edition,
this essential guide offers
a comprehensive introduction
to using graphic tools and
drafting conventions to
translate architectural
ideas into effective visual
presentations, using

hundreds of the author's distinctive drawings to illustrate the topic effectively.

ARCHITECTURAL GRAPHIC STANDARDS ONLINE

Architectural Graphics focuses on the techniques, methodologies, and graphic tools used in conveying architectural ideas. The book takes a look at equipment and materials, architectural drafting, and architectural drawing conventions. Discussions focus on drawing pencils, technical drawing pens, set

squares/templates, circle templates/compasses, line weight/line types, drafting technique, drawing circular elements, floor plan, doors and windows in plan, stairs, wall indications, plan grids ...

To that end, the Architectural Graphics 101 series was born. There isn't anything special about the topic I have selected for the very first entry in this

series - in fact - I've almost gone the opposite direction and chosen something pretty vanilla as a starting point.

Architectural Graphics 101 - Reflected Ceiling Plans
Architectural Graphic Standards is the gold-standard reference for practicing architects, engineers, and builders; this Student Edition introduces key elements in a way that's relevant to the budding designer, along with ancillary materials that facilitate internalization.
