While external suppression should be
connected when a GTX-327 is
installed into an aircraft with a DME,
the GTX-327 suppression input/output
is not compatible with the Bendix/King
KN-62, KN-64, and KNS-80. These
DMEs have an output only
suppression port and can be damaged
by the GTX-327 mutual suppression
output.

Bendix King KN 64 DME Excellent
Condition | eBay

The King KN-64 DME represents a compromise between the KN-62 and KN-62A DMEs. It is a current production model, like the KN-62A, but typically sells for roughly the price of a KN-62 (check current prices). The trade-off is that the KN-64 is a less powerful model than either the KN-62 or KN-62A.

1-3 1.3.1 DME CHANNEL SOURCES
The KN 62/62A/64 can be channeled
by the internal channeling tuning
knobs or it may be chan- neled by an
external source. The KN 62/62A/64
will accept external channeling in the
form of Shifted BCD, ARINC 2X5, or
Bendix/King Slip code.

BendixKing KN-64 DME (OHC)
Featuring an all solid state transmitter and four Large Scale Integrated Circuits, the non-TSO'd KN64 requires only 1.3inches of panel height and weighs in at only 2.6lb. The KN64's self-dimming photocell provides large easy-to-flight information.

Buy BendixKing KN64 DME (OHC)
Both the KN 62A and KN 64 can be channeled remotely through almost any NAV receiver or tuned directly with their own frequency selection knobs. They even have dual channeling capability, making two DME frequencies available to you at all

Kn 64 Dme Manual

times - one remote with one stored internally. So what you have, in effect, is a functional DME Hold Mode.

KN 62A Panel Mount DME - BendixKing

The TSO'd KN 63 is a complete 100 watt, 200-channel remote DME system utilizing Large Scale Integrated (LSI) circuit technology. Offering significant advantages in DME reliability and performance, the KN 63 is all solid-state (no transmitter tubes) and can be installed with either single or dual panel indicators.

KN 63 Remote Mount DME - BendixKing

The KN 62A and KN 64 have an audio output for use in identifying the DME ground station being received. The audio level is preset at the factory, but

Online Library Bendix King Kn 64 Dme Manual

may be easily adjusted through the top cover. The unit electronically converts to distance the elapsed time required for signals to travel to and from the ground station.

don't just run your DME business - grow it! Running a durable medical equipment business is time consuming and resource intensive. Hiring and training competent employees is a substantial burden, and day-to-day operations suffer when excess time needs to be spent on employee development.

During the Bendix and King merger (i.e. Bendix/King), a new part numbering system was created that converted these 9 digit part numbers to 12 digits. Therefore, 066-3056-01 became 066-03056-0001. Despite this numbering change, units that were originally from the King Radio design still have the 9 digit part number format on the unit dataplate.
