Blockchain Revolution, by Don Tapscott & Alex Tapscott. Over 30 years, no theorist of the digital age has better explained the next big thing than Don Tapscott. For example, in Wikinomics Tapscott was the first to show how the Internet provides the first global platform for mass collaboration. Now, he writes about a profound technological shift that will change how the world does business—and everything else—using blockchain technology, which powers the digital currency Bitcoin.

The blockchain is an undeniably ingenious invention – the brainchild of a person or group of people known by the pseudonym, Satoshi Nakamoto. But since then, it has evolved into something greater, and the main question every single person is asking is: What is Blockchain? Is Blockchain Technology the New Internet? By allowing digital information to be distributed but not copied, blockchain ...
