Re: Difference btw M43 and N42 engine for E46? am surprised that the last batch of E46s valvetronics have the same engine as the E90 320s... read in the BMW mag that the E90 bhp increase was due to mods done to air-intake, exhaust and probably ECU... 105kW to 110kW... dont know if it is just this simple, i suspect there should be more to it though...
