on the same three basic valuation approaches covered in this article, but there are some differences in an M&A valuation connected to the purpose for the valuation.

Merger And Acquisition Valuation Methods | Valentiam

This note discusses valuation in the context of business mergers and acquisitions. It builds on standard methods of business valuation to consider the unique questions arising in a merger or acquisition setting. The note focuses on valuation using the discounted cash flow (DCF) approach and the comparable-firm-multiples approach and presupposes an understanding of the principles of business valuation.

Business Valuation in Mergers and Acquisitions

Most often in a mergers and

acquisitions transaction, the target business will be valued as a going concern, unless the target company is in distress and the acquiring company is purchasing it to strip it down and sell the assets, or to remove it from the market as a competitor.

Mergers and Acquisitions: Valuation Methods

The enterprise value of a company is typically defined as the market value of its capital (debt and equity), net of cash. The denominator of the multiple is an accounting metric, such as the company's earnings, sales, or book value.

Valuation of Mergers and Acquisition - YouTube

Essentially, an asset-based business valuation will total up all the investments in the company. Asset-based business valuations can be done in one of two ways: A going concern asset-based approach takes a look at the company's balance sheet, lists the business's total assets, and subtracts its total liabilities. This is also called book value.
