Certified Healthcare

The Certified Healthcare Constructor (CHC) exam features questions organized into four broad domains: healthcare industry fundamentals; the planning, design, and construction process; healthcare facility safety additions and renovations; and financial stewardship. ASHE is working to develop a list of resources useful to those preparing for the exam, and the list below is an initial version.

Preparing for the CHC Exam: A Resource List | ASHE

Eligibility for the examination requires ONE of the following: Baccalaureate degree or higher from an accredited college or university plus five (5) years of associated construction experience*, five (5) years of which must have been working on healthcare construction projects, three (3) years
