## Chapter 10 Cell Growth Division

### CHAPTER 10 CELL GROWTH AND DIVISION. 10-1

Cell Growth. Limits to Cell Growth. Cells do not continue to grow indefinitely. They divide. The larger a cell becomes, the more demands the cell places on its DNA and the more trouble the cell has moving enough nutrients and wastes across the cell membrane.

---

demands the cell places on its DNA. In addition, the cell has more trouble moving enough nutrients and wastes across the cell membrane. –The rate at which food, oxygen, water, and wastes are moved in and out of the cell is dependent on the surface area of the cell. –The rate at which food, oxygen, and water are used and waste is produced depends on the cell's volume.

10 2 Answers

Chapter 10 Cell Growth and Division. Section  
10-1 & 10-2. Cells divide rather than get  
larger because..... Demands on DNA would be too  
great. Cell would have trouble moving food  
and waste across the cell membrane. Volume  
increases faster than surface area. Each  
organism has a specific number of  
chromosomes.
