Packet Answer Key

This collection of ten chemistry test

questions deals with the concepts

introduced with the ideal gas laws. Useful information: At STP :

pressure = 1 atm = 760 mm Hg,

temperature = 0 °C = 273 K At STP: 1 mole

of gas occupies 22.4

L R = ideal gas

pressure, temperature, volume and amount of gas.

Boyle's Law tells us that the volume of gas increases as the pressure decreases.

Charles' Law tells us that the volume of gas increases as the temperature increases. And

Avogadro's Law tell us that the volume of

Read Book

Chemistry Gas

gas increases as the amount of gas increases. The ideal gas law is the combination of the three simple gas laws.
