Cisco Unity Connection
allows licensed users to use

a third-party IMAP client to access voice messages from their desktop machines. Currently, it is possible only to play voice messages with the IMAP client: there are no replies or forwarding capabilities. Passwords are not synchronized between IMAP clients and the Cisco PCA.

Cisco Unity Connection Voicemail User Guide

Connection user: Connection plays the message number, time stamp, and name and/or extension of the user who left the message. Unidentified caller: Connection plays the message number and time stamp.

Connection may also play the phone number of the caller, if the number is available and if the system is set up to do so.

User Guide for the Cisco Unity Connection Messaging

...

As a Cisco Unity Connection user, you can send and manage messages by using a phone and by using the Cisco Unity Inbox web tool; you may also be able to manage voice messages in your e-mail program. The Cisco Unity Assistant web tool lets you personalize your Connection phone settings.

User Guide for the Cisco
Unity Connection Phone
Interface Contains
instructions and information
on managing messages and
personalizing Cisco Unity
Connection settings by using
the phone interface (also
known as the TUI). The guide
is available at http://www.c
isco.com/en/US/docs/voice_ip
_comm/connection/7x/user/gui
de/phone/7xcucugphonex.html.

Your first step in using
Cisco Unity Connection is to
enroll as a user, which you
do by phone. Typically,
Connection is set up so that
you hear the first-time
enrollment conversation when
you call the system for the
first time. The first-time
enrollment conversation is a
set of prerecorded prompts
that guide you as you do the
following tasks:

In Cisco Unity Connection

Serviceability, select Trace > Configuration. Step 2: On the Trace Configuration page, in the Server drop-down list, select the applicable Cisco Unity Connection server and click Go. Step 3

Cisco Hosted Collaboration Solution Troubleshooting Guide ...

Hi all, Is there a way to call into Unity Connection from an outside phone that does not require the * before inputting the number? I thought there was, but am not finding it now. Also, other than 9 to fast forward is there a way to go directly to the body of the

voicemail message? Thanks
Bernece

Cisco Cisco Unity Connection
Version 10.0 User Guide ...
Adding users with the Bulk
Administration Tool (BAT) in
Cisco Unity Connection is
similar to using BAT in
CUCM. There are three basic
tasks that need to be done
to import users using BAT in
Cisco Unity Connection.
Select and export the comma
separated value (CSV) file
to your workstation. Add the

users to the downloaded CSV file.

Managing Users in Cisco Unity Connection > CCNA Voice ...

The user options portal for Unity Connection is not CCMUser (CUCM only). It's the Cisco PCA (Personal Communications Assistant). That is https:// /ciscopca. You can give users access to Unity Assistant and etc. via the CoS configurations.
