Cisco VoiceView Express. And there's yet a third option, because we have these nice IP phones, we can actually as an end user manage the Cisco Unity Express voice mail system using our IP phone display and softkeys. We can manage our personal mailbox options, how we're notified, we can listen to our messages, and send and forward messages, and all of this has to be configured as the service though on our Cisco Unified Communications Manager Express.

Self Service Voicemail Password Reset for Cisco Unity Connection for end user. Hello Expert, Is there a way end user can reset voicemail password from their end instead of admin doing for them. If it is possible please let me know how this can be achieved. Regards, rds,Asif. Solved! Go to Solution. Labels: ...

Self Service Voicemail Password Reset for Cisco Unity ...

User Accounts. Let's start off by compartmentalizing end users versus application users, they're very distinct. End users manage their individual phones. Application users run things like an application within the environment, such as, maybe they are in a primary answering position so they are in the attendant console environment, or maybe they are managing the Contact Center Express or logging in to Contact Center Express or the Communications Manager Assistant tool.
