Lesson 18 An argument isn't just a disagreement with your best friend about what to do on Saturday afternoon. In writing, an argument is a text that expresses the author's position about a topic and why that position is correct.

Lesson 18 Part 1: Introduction CCLS Evaluating an Argument

6•1. Lesson 18: Finding a Rate by Dividing Two Quantities. Student Outcomes. While there is no physical way to divide two different quantities like (5 miles)/(2 hours), students make use of the structure of division and ratios to model (5 miles)/(2 hours) as a quantity 2.5 mph. Interpreting a rate as a division of two quantities, or better yet a fraction, is the first step towards converting measurement units using rates later in the module and dimensional analysis in high school.

Lesson 18: Finding a Rate by Dividing Two Quantities

If none of these questions can you will learn, lesson 18: construct a coordinate system on a 18.
