~~Engineering Activities Use Math and ELA Skills~~ The EiE curriculum was completed before the Common Core standards were released. Just the same, relevant skill-based math practices are part of the activities in almost every EiE unit: practices like making sense of problems, persevering to solve them, and reasoning both abstractly and quantitatively.

The New York State P-12 Common Core Learning Standards (CCLS) are internationally-benchmarked and evidence-based standards. These standards serve as a consistent set of expectations for what students should learn and be able to do, so that we can ensure that every student across New York State is on track for college and career readiness. The New York State Education Department

~~Science and Engineering Practices describe what scientists do to investigate the natural world and what engineers do to design and build systems.~~ The practices better explain and extend what is meant by "inquiry" in science and the range of cognitive, social, and physical practices that it requires. Students engage in practices to build, deepen, and apply their knowledge of core ideas and crosscutting concepts.

### ~~Nevada Academic Content Standards~~

These standards are called the Common Core State Standards (CCSS). Having the same standards helps all students get a good education, even if they change schools or move to a different state. Teachers, parents, and education experts designed the standards to prepare students for success in college and the workplace.
