Concurrent Engineering: Research and Applications (CERA) provides quality peer-reviewed articles on all aspects computer-aided concurrent engineering (CE). The journal deals with all basic tracks that enable CE, including: information modeling, teaming & sharing, networking & distribution, planning & scheduling, reasoning & negotiation, collaborative decision making, and ...

Online Library Concurrent Engineering Research And Applications

Concurrent Engineering: SAGE Journals

Concurrent Engineering: Research and Applications (CERA) is a leading, peer reviewed journal publishing the newest and most exciting research arising from parallelism of product life cycle functions, covering: New developments in computer-aided concurrent engineering (CE) presented by leading CE specialists from around the world Advances in knowledge-based CE theory, methodologies and practical applications New information for integrated CE development and optimization of CAD/CAM/CAE/CIM ...

Concurrent Engineering Research and Applications

Concurrent engineering (CE) is an engineering management philosophy and a set of operating principles that guide a product development process through an accelerated successful completion....

CONCURRENT ENGINEERING: Research and Applications

CONCURRENT ENGINEERING: Research and Applications Technology Solutions for Collaborative Product Lifecycle Management – Status Review and Future Trend X. G. Ming,^{1,*} J. Q. Yan,¹ W. F. Lu² and D. Z. Ma¹ ¹School of Mechanical and Power Engineering, Shanghai Jiao Tong University, No. 1954 Huashan Road Shanghai, 200030, PR China

CONCURRENT ENGINEERING: Research and Applications

One strategy is concurrent engineering (CE) that focuses on improving the product development process, by the consideration of various factors associated with the life cycle of

CONCURRENT ENGINEERING RESEARCH AND APPLICATIONS - 1063 ...

Concurrent Engineering: Research and Applications (CERA) is a leading, peer reviewed journal publishing the newest and most exciting research arising from parallelism of product life cycle functions, covering: New developments in computer-aided concurrent engineering (CE) presented by leading CE specialists from around the world

Concurrent Engineering | SAGE India

Research on materials selection for composite materials under the umbrella of concurrent engineering had been performed by researchers such as Kim et al. (2000). In CE design environment, information and communication technology (ICT) tools were integrated where various activities of composite development are stored in a computer in different ...
