Tray cavities can be formed in more
standard geometric shapes to hold on part
or act as a universal cavity tray for use
with multiple part sizes. Simpler cavities
in standard geometric shapes generally
have lower tooling cost. Prototype Cavity

Cable tray wiring systems are well suited for computer aided design drawings. A spread sheet based wiring management program may be used to control the cable fills in the cable tray. While such a system may also be used for controlling conduit fill, large numbers of individual conduits must be monitored.
