I have read 2 books for Dr. Nilson, Design of Concrete Structures and Design of Prestressed Concrete. What differentiates Dr. Nilson's books from others' is his special way of verbalising concepts. Dr. Nilson's books take readers or engineers deep into the concepts. Also, Dr. Nilson mentions the background behind the code requirements. Dr. Nilson knows how to select the proper words to explain. I adore his style.

Design of concrete structures by Arthur H. Nilson, David Darwin, Charles W. Dolan is one of the most popular books to design reinforced concrete structures. The 14th edition of this design book comprises of clear and understandable text in S.I units. The topics and chapters are totally categorized newly and new design codes such as American Concrete Institute Code (ACI) 2008 has been adopted throughout the book.
