Appropriate use of canes and walkers can prevent falls. If your doctor tells you to use a cane or walker, make sure it is the right size for you and the wheels roll smoothly. This is important when you're walking in areas you don't know well or where the walkways are uneven. A physical or occupational therapist can help you decide which devices ...

Prevent Falls and Fractures | National Institute on Aging

Falls can cause broken bones, like wrist, arm, ankle, and hip fractures. Falls can cause head injuries. These can be very serious, especially if the person is taking certain medicines (like blood thinners). An older person who falls and hits their head should see their doctor right away to make sure they don't have a brain injury.
