In addition to the dust on the moon and Mars, NASA plans to study Earth's dust to determine how it may be helping or exacerbating climate change.

Why NASA Is Measuring Dust On Earth From Space

A lot of science gear will go up to the International Space Station this week on SpaceX's 25th cargo resupply service mission to the orbital lab ... in new tab). The Earth Surface Mineral Dust ...

Moon bricks, space sutures and more: Meet the science SpaceX is flying to the space station this week The Class of 2022 is ready for liftoff. During their time at Scripps Institution of Oceanography at UC San Diego, these remarkable students gained expertise in fields including ocean and atmospheric ...

Hats Off to You, Grads

Two CubeSats, each about the size of a loaf of bread, will launch aboard Astra's Rocket 3.3 from Space Launch Complex 46 at Cape Canaveral Space Force Station in Florida. NASA is offering ...

NASA Offers Earth Scientist Interviews Ahead of TROPICS Mission

NASA is launching the brand new EMIT mission to the International Space Station on June 10 from the Kennedy Space Center. Read to know more.

What Is NASA's EMIT Mission Launching To The International Space Station On June 10?

The International Space Station ... a cage in some laboratory the whole time. These are hardly comparable experiences. Some of these elements could certainly be simulated on Earth for the control ...

ISS Artificial Gravity Study Shows Promise For Long Duration Spaceflight

The Shenzhou-14 spacecraft carrying astronauts Chen Dong, Liu Yang and Cai Xuzhe, was lifted off from the Jiuquan Satellite Launch Center in northwest China ...

China successfully launches crewed mission for space station construction

China is planning to launch a solar power plant in space for getting inexhaustible power in 2028, two years ahead of the original schedule, a Chinese daily reported. Earlier, China aimed to establish ...

An inexhaustible solar power station in space? China may get one by 2028

When completed, the T-shaped space station can accommodate as many as 25 lab cabinets, each a micro lab that can be used to conduct experiments. Wentian will be equipped to support life science ...

Chinese astronauts blast off to space station as construction enters high gear

The sled tests bridge the gap between full-scale flight tests and laboratory ... 250 miles above Earth. The space agency has posted the images to its International Space Station Laboratory Twitter ...

Science, Space, Health & Robotics News Page 1

while the second lab Mengtian will be launched by the same rocket model from Wenchang in October. After they are connected with Tiangong, the station will form a T-shaped structure. Other tasks ...

Shenzhou XIV mission blasts off

to launch the agency's next investigation to monitor climate change to the International Space Station. Flying aboard SpaceX's 25th commercial resupply services mission to the orbital laboratory is ...

NASA to Highlight Climate Research on Cargo Launch, Sets TV Coverage

The failure occurred roughly 10 minutes after a successful liftoff of Astra's Rocket 3.3 at 1:43 p.m. ET (1743 GMT) from a launchpad at the Cape Canaveral Space Force Station in Florida.

UPDATE 1 Astra's NASA mission suffers failure, loss of weather satellites

China's space industry is a critical element of its national strategy, and the launch of the Chinese space station will be the culmination of a project China envisioned in 1992.
