Your Cambridge A Level Economics answers - Secondary -

Most primitive economies concentrate on producing food and shelter - the basic necessities of life. However, with increased productivity, the economy has more available resources which can be used for non-necessary goods, such as leisure and education. In a free market, production is determined by market forces.

Which of the following is the best explanation of economic resources? Resources used in the economy Land and capital Land, labor and technology All factors used in the production of goods or...

Quiz & Worksheet - Types of Economic Resources | Study.com

The four basic economic questions are: what goods to produce, how to use resources in the production process, who receives the finished goods and when to produce the goods. Answering these four questions is essential for an economy to function properly. The question of what to produce is one that addresses both the needs of society and the most efficient use of available resources.

What Are the Four Basic Economic Questions?

Favourite answer: Supply and Demand curves are independent of each other. If demand exceeds supply, that creates a shortage. That means that some of the demand will not be fulfilled, but it doesn't...
