elna supermatic - eBay

The Elna Supermatic was actually the world ' s first automatic sewing machine. The very first model was said to have its first prototype made in Swizerland in the 30 ' s before World War II. There were several models made, the first being the Elna 1. The particular model my husband brought home was the Elna 2, made between 1956 – 1958.

Elna Supermatics are one of my favorite sewing machines, particularly because they have needle position control, you completely control stitch width & length (even in reverse), they are mostly metal, have incredible instruction manuals came with their own twin needle "attachment", you put regular needles into it, & put it on the machine, to replace the one needle one.

## Vintage Sewing Machines: Elna Supermatic

The first Elna sewing machines were the Elna 1. This unit was produced in 1940 and stayed in production for about 12 years. In 1952, the company came out with

# Read PDF Elna Supermatic Sewing Machine

the Supermatic Elna 2 model and kept it in production for about 11 to 12 years. During the production of the Elna 2, the company came out with a zig-zag sewing machine and the Supermatic Elna 3.

controlled by the slider going up and down. The slider has adjustable stops. Stitch width is regulated using the control which moves left-right.

Elna Supermatic Sewing Machines  
Elna Innovations 1940 Elna #1 - the first portable, free-arm sewing machine with electronic motor and built-in light, The carrying case also served as a sewing table. Invented by Ramon Casas, this machine constituted a revolution in the field of household sewing machines. 1952 Supermatic - another revolutionary concept as the first domestic sewing machine with fully automatic stitches.
