The Guide to Lacto-Fermentation: How To Ferment Nearly Anything Fermentation Biotechnology

is a leading synthetic biotechnology company, transitioning the Clean Health & Beauty and Flavors & Fragrances markets to sustainable ingredients through fermentation and the company's proprietary ...

AMYRIS BARRA BONITA FERMENTATION PLANT BEGINS INDUSTRIAL PRODUCTION

Multinational consumer goods company Unilever is partnering with San Diego-based biotech Geno to commercialize plant-based alternatives to palm oil and fossil ...

Unilever Launches \$120M Biotech Venture for Palm Oil & Fossil Fuel Alternative

A Durham company with operations in France is on a mission to convert wood into food and disrupt the food supply. Or to put it another way: to replace the cow.

Feeding the food supply

Cellular agriculture investor Agronomics has led the founder's round of Liberation Labs, it announced on Monday, through an initial investment of \$0.63m (\u00a30.51m) for a 47% equity stake.

Agronomics leads founder's funding round into Liberation Labs

Unilever is making its largest biotechnology investment to date, teaming with the California-based Genomatica on greener alternatives to palm oil and fossil-fuel-derived ingredients.

Unilever, Geno Aim to Develop Biotech Solutions That Lather, Lift Dirt

London-listed cellular agriculture group Agronomics is amongst the early-stage backers of biotech firm Liberation Labs ...

Agronomics takes 47% stake in biotech firm Liberation Labs

The German BRAIN Biotech AG is the parent company of the international BRAIN Group, which distributes B2B specialty products, including enzymes and bioactive natural products. The BRAIN Group has its ...

BRAIN Biotech publishes first ESG and Sustainability Report

Creative Biogene, a biopharmaceutical company dedicated to delivering first-class microbiological research program and rich microbial sample collection, today announced the release of Bacillus ...

Obtaining High-yield and Bioactive B. subtilis Bioproducts with Creative Biogene's Cultivation Support

Moolec Science - which has developed a 'molecular farming' platform to produce plants that express animal proteins - is going public via a special purpose acquisition company (SPAC)* in a deal ...

Animal proteins... made by plants? 'Molecular farming' co Moolec Science to go public via SPAC

BOC Sciences has been longing for the opening of the BIO International Convention since it was registered as an exhibitor several months ago. O ...

BOC Sciences Is Fully Prepared for the BIO International Convention in June

Biotalys (Euronext - BTLS), an Agricultural Technology (AgTech) company protecting crops and food with protein-based biocontrol solutions, and Novozymes, a world leader in biotech solutions, today ...

Biotalys and Novozymes Enter into Partnership to Expand Opportunities for Evoca™

Food ingredient company Shiru has appointed three new members to its advisory board: Dean Banks, former president and CEO of Tyson Foods, Aaron Kimball, former CTO of ...

Shiru appoints industry veterans Dean Banks, Aaron Kimball, and Blaine Templeman to advisory board

Geno will deploy its proven biotechnology platform and is already ... and is using Cargill's global feedstock supply and fermentation manufacturing expertise to initially produce and distribute ...

Geno and Unilever launch \$120m venture to scale alternative to palm oil and fossil fuels

Fermentation is being used by scientists as a unique method for making Rebaudioside M (Reb-M) to sustain the purity and sweetness of sugarcane in natural sugar substitute similar to regular sugar.For ...
