Very Short Introduction

I found this book to be a superb introduction not just to Freud but to the core concepts of psychoanalysis as a whole. Don't be fooled (or put off) by the title saying it is a "short" introduction, there is nothing short or shallow about this book. Thanks to the fairly small print it actually contains a huge amount of information.

An enjoyable read as an introduction to Freud. The author is sometimes critical of Freud's hypothesis without providing sufficient counter evidence but this is inevitable in a short introduction. Suggestions for further reading are helpful. Easy to read as an ebook.
