The second megatrend is what we call "leaner, cleaner and greener": innovative solutions to  
meet demand for the world's finite food, water, mineral and energy resources. Renewable  
energy and low ...

Report identifies seven 'global megatrends' shaping the 21st century

If you put the DNA strands with the right sequences in solution, the objects self-assemble ...  
And it can generate more energy per second than what's released when two ATP molecules  
are split ...
