Honda Engines | Pressure Washer
Engines

The new Honda GCV Pressure Washer engines are superior to the competition in power output. Honda internal tests showed net power output of the GCV170 produced an average of 32% more power, while the GCV200 produced an average of 16% more power than a leading competitors comparable size engines. Powerful output allows the pump of a pressure washer to produce a steady, even amount of high pressure providing consistent performance for tough cleaning conditions.
