## HP LaserJet 4050 Paper Feed Components

See if you can see any the items on the fuser turning as the paper starts to feed. Now I know you said there was toner on the page when

removed, so I am  
sure this is not  
your issue but  
lets check  
anyway. Open the  
toner door and  
remove the toner  
cartridge. Now  
slowly close the  
toner door and  
look on the  
right side for  
the white cam  
which should

except for when  
I removed the  
plastic inset on  
tray 1 that has  
the guides for  
different paper  
widths. The  
video said to

## Problems

### HP LaserJet 4050 Printer

Turns out that I had moved the printed and in the process of moving it, the paper tray #2 somehow shifted to legal size paper instead of standard 8x11.5

# Read Free Hp Laserjet 4050

inch paper. To  
fix the problem,  
I pulled out the  
paper tray,  
found the blue  
stop at the very  
BACK of the tray  
and pulled it  
forward into the  
proper position  
for standard  
paper. This  
solved the  
problem for me.
