Pricing for hotel property management software is usually either per
room/unit or per user. Keep in mind that for an on-premise system
you'll pay a single fee, likely with an annual maintenance upgrade,
while Web-based systems (Software as a Service, or SaaS) will
charge on a monthly basis.

Hotel-Spider was recommended to us during the assessment of our software. Even though the configuration took a little more time at the beginning, the change has certainly been worth our while. We now save a lot of time since we are interfaced to our own Property Management System. This saves us from entering reservations manually.
