International Journal Of Technology Management

The objectives of IJTM are to develop, promote and coordinate the science and practice of technology management. It also aims to help professionals working in the field, engineering and business educators and policy-makers to contribute, to disseminate information and to learn from each other's work. The international dimension is emphasised in order to overcome cultural and national barriers and to meet the needs of accelerating technological change and changes in the global economy.

Journal of Technology Management & Innovation
JMTM gives a broad international coverage of subjects
relating to the management of manufacturing technology.
Emphasis is placed on the publication of articles which seek
to link advances in theory with practical application with the
objective of identifying improved practices for manufacturing.
JMTM is looking for articles that are rooted in reality, this
means, have an empirical base for example through surveys,
