ISACA | IT Governance UK
ISACA requires at least five years' IT
governance experience in the five CGEIT
domains to qualify for certification. You
can take the CGEIT exam before meeting
ISACA's experience requirements, but the
CGEIT qualification will not be awarded

until all requirements are met. We do not set specific entry requirements for this course.

CGEIT Training Course | IT Governance UK

IT Governance (Information Technology Governance) is a process used to monitor

and control key information technology capability decisions - in an attempt - to ensure the delivery of value to key stakeholders in an organization. Here are the key points in this definition: IT Governance is a process. It is not a point in time event.

IT Governance - CIO Wiki
The CGEIT (Certified in the Governance of Enterprise IT) qualification, awarded by ISACA ®, demonstrates that holders have the expert knowledge and experience necessary to support GEIT (governance of enterprise IT) – ensuring that an organisation's IT is governed from the

top, and therefore aligned with business needs and goals.
