All students will be required to maintain a laboratory notebook. The notebook will be used for the recording of laboratory data and calculations, and will be critically important for writing your lab reports. The purpose of a laboratory notebook is to allow anyone with some biochemical knowledge to understand exactly what you did. You need to record the information in

Laboratory Safety with Bob the Biochemist. Description: An articulate presentation describing best practice for laboratory safety. It was designed for first year university undergraduates and details laboratory safety issues such as COSHH, hazard identification and risk management. There is then the opportunity to visit a 'virtual lab' where students are able to navigate Bob the Biochemist through a series of safety related themes.
