Linux Mint is free of charge (thanks to your donations and adverts on the website) and we hope you'll enjoy it. Some of the packages we distribute are under the GPL. If you want to access their source code you can use the apt-get source command. If you can't find what you're looking for please write to root@linuxmint.com and we'll provide the ...

Releases - Linux Mint
One reason I'm excited about the Mint 20.1 release is that it's based on Ubuntu 20.04, which is an outstanding Linux desktop in

its own right. This new version of Mint will be supported until 2025.

Linux Mint 20.1 beta arrives | ZDNet
The Linux Mint 20.1 beta has been released. It comes with several new programs including an IPTV client called Hypnotix and another called Web Apps. Chromium has also returned to the repositories.

Linux Mint 13 "Maya" is out! I'm running it under VMware Player

and it appears to be rock solid. Mint 13 is based on Ubuntu 12.04 "Precise Pangolin", which is the most recent release of the venerated Ubuntu OS. Ubuntu 12.04 is itself rock solid, and by extension, so is Mint 13. The major difference is in the interface.
