**Maintenance Manual For Brompton**  
Quick Visual Guide To Basic Brompton  
Maintenance 1 -2 Step 4. Unscrew the  
gear cable barrel from the gear chain rod  
to disconnect the gear cable from the hub.  
Step 5. Unscrew the gear chain rod from  
the rear hub and set aside for cleaning  
later. Step 6. Remove the chain tensioner  
with the size 15mm spanner. Set aside the  
retaining nut and washer.

## QUICK VISUAL GUIDE TO BASIC BROMPTON MAINTENANCE

If you carry out any adjustments or  
maintenance work yourself, do read the  
relevant section of this manual first, as it's  
quite easy to get things wrong, and to  
impair the folding process or damage the  
machine. If you take your bike to a dealer  
for any servicing work, wherever possible  
use an authorised Brompton stockist.  
Serial and Frame Numbers.

## Where To Download Maintenance Manual For

doesn't need much in the way of maintenance – the sealed hub gears and galvanised chain make the gearing very durable. So, basically just oil the chain occasionally. Also oil the cables – especially, drip a little oil into the upturned end of the brake cable where it goes into the brakes at the front and back.

Brompton maintenance – Kinetics  
Top tips for cleaning your Brompton.  
Wash your Brompton bike. Use a sponge, some warm water and some specific bike cleaner. Your local Brompton dealer should be able to recommend a suitable bike detergent. Don't use household dish washing detergent, it has got lots of salt in it which won't do your Brompton any good.

Servicing Sturmey-Archer 3-Speed Hubs  
(1) The most likely repair you will have to carry out during your tour is a puncture tyre. The procedure for removing the tyre from the wheel and replacing or fixing an inner tube is the same that you would follow on any other bicycle. What is trickier on a Brompton is removing the rear wheel in order to replace the inner tube.
