The Biology Matters Workbook
has much more extensive
review questions than the
textbook. At the end of each
worksheet is a reference
chart that tells you what
section the questions are
based on. This is helpful as
some worksheets cover more
than one chapter. You can
also use the chart to assign
questions after each
section.

Marshall Cavendish Education and is intended for the high school crowd. This series covers three branches of science: biology, chemistry, and physics. Like other products from this publisher, there are several different components. The Teacher Planning Guide contains an overview of the curriculum and an outline of the resources and activities available.

I'm actually a student, I'm using Marshall Cavendish's books, does anyone know where I can get Biology Matters Practical and Chemistry Matters Practical in Teacher's Edition? Also, our social studies book is from EPB Pan Pacific, anyone know any websites that sell these books? MOE has a strict regulation that prevents me from getting the books in Singapore.

Does anyone know how I can get Teacher's Edition
