Oracle XML Developer Kit (XDK) is a set of components, tools and utilities in Java, C, and C++ bundled with Oracle Database 12c that eases the task of building and deploying XML-enabled applications with a commercial redistribution license. Unlike many shareware and trial XML components, Oracle XDK provides high performance XML support that has been proven in demanding enterprise production environments.

By providing full support for XML standards, Oracle XML DB supports native XML application development. Application developers are able to use XML-centric techniques to store, manage, organize, and manipulate XML content stored in the database. Oracle XML DB also supports the SQL/XML standard, which allows SQL-centric development techniques to be used to publish XML directly from relational data stored in Oracle Database 19c.

Oracle University learning paths provide step-by-step training curriculum to prepare you for a job role, to help you accomplish a critical job task, or in some cases to help you prepare to earn an Oracle Certification credential. Learn more.

XML Developer Learning Path | Oracle University
XML DB is an out-of-the-box solution for storing and retrieving XML documents within Oracle. In addition, the registration of XML schemas allows XML DB to shred the XML documents and store them as object-relational structures to improve query performance within the database. No additional software is needed for this process as all the functionality is built into the Oracle9i Release 2 kernel.

ORACLE-BASE - XML DB
Oracle XML DB reduces memory overhead associated with DOM programming by managing XML schema-based XML documents using an internal in-memory structure called an XML Object (XOB). A XOB is much smaller than the equivalent DOM since it does not duplicate information like tag names and node types, that can easily be obtained from the associated XML schema.

Getting Started with Oracle XML DB
Oracle XML DB also supports the SQL/XML standard, which allows SQL-centric development techniques to be used to publish XML directly from relational data stored in Oracle Database 19c. With Oracle XML DB, you get all the advantages of relational database technology plus all the advantages of the W3C's XML standards. Oracle Database 19c
