Car Engine Overhaul. When a car's engine begins to sound 'funny', when it idles, while it is accelerating, or as it turns off, then you may need an engine overhaul. Even smoke billowing from the exhaust pipe, or if your car runs too hot, it could spell serious engine damage. It is hard to say without a check-up from a reputable auto service centre like Super Tune, but you just may need to take your engine apart, clean it up and replace any damaged engine parts or seals, and then put it ...
