Solution To Problems in General Physics by I.E Irodov IRODOV is considered synonymous with problem-solving and concept development in Physics. The problems covered in the book are nothing but a challenge to the best brains in the world and this IITianAcademy contains solutions to those trickiest problems which require the use of principles across two or more topics of Physics.

General Physics

[1.1]- Problems in general Physics by I E
Irodov A motor boat going down stream
over came a raft at a point A; $t = 60 \text{ min}$
later it turned back and after some time
passed the raft at a distance $s = 6.0 \text{ km}$
from the point A. Find the flow velocity
assuming the duty of the engine to be
constant.

Solutions to I E Irodov - Problems in General Physics I had a lot of fun solving I E Irodov "Problems in General Physics" when I was preparing for the IIT-JEE. I have seen a lot of posts from students seeking solutions to IE Irodov so I decided to put them up online. Whenever I find time I solve a few and post them.

Kinematic equations relate the variables of motion to one another. Each equation contains four variables. The variables include acceleration (a), time (t), displacement (d), final velocity (v_f), and initial velocity (v_i). If values of three variables are known, then the others can be calculated using the equations. This page demonstrates the process with 20 sample problems and accompanying ...

~~Irodov Solutions to Problems in General Physics Volume I ...~~

Some of the major unsolved problems in physics are theoretical, meaning that existing theories seem incapable of explaining a certain observed phenomenon or experimental result. The others are experimental, meaning that there is a difficulty in creating an experiment to test a proposed theory or investigate a phenomenon in greater detail.
