Flying is easy with this indoor RC helicopter. The 32-level high precision rotor blade system allows for a steady lift off.

10 Best RC (Remote Control) Helicopters (Oct 2020 Review)

Many people expect a bit of a learning curve to flying a radio-controlled helicopter, but we've got forgiving heli models that will let you master the basics of the hobby. The best way to learn the ropes is with a fixed pitch heli (FP), which uses various technologies, ranging from a flybar to electronic systems to improve stability.

Amazon.co.uk: remote-control helicopter

Remote Control: Most RC helicopters make use of a handheld remote device with an antenna that sends signals to the helicopter's IR receiver. The remote is generally a range from 3-5 channel RC Helicopter and can provide the methods of moving in the air depending on the number of channels that came with the remote control.
