Using an optional flash unit such as the Nikon SB-400 or SB-900 makes it possible to achieve optimal exposure at greater distances than with the built-in flash. We recommend using an optional flash unit when taking photographs at weddings and in other situations in which you may frequently be taking photographs at a distance from the subject.

SB-800 AF Speedlight | Nikon

Throughout most of the world where the metric system is observed, guide numbers are expressed as a unitless numeric value like 34, even though they are technically a composite unit of measure that is a two-factor product: $f \times \text{number} \times \text{meters}$. As such, guide numbers can be reduced either to distance in meters or to $f \times \text{stops}$ depending on how one uses the guide number in a calculation.
