The new controller generation SIMATIC S7-1200 and S7-1500 has an up-to-date system architecture, and together with the TIA Portal offers new and efficient options of programming and configuration. It is no longer the resources of the controller (e.g. data storage in the memory) that are paramount but the actual automation solution itself.

Programming Guideline for S7-1200/1500 - Siemens

Thanks to its integration in TIA Portal, STEP 7 offers transparency, intelligent user navigation, and straightforward workflows in every work and programming step. Functions such as drag & drop, copy & paste, and Auto Complete make work much quicker and easier.
