Site instructions: Here's the correct format for your book

Engineer's instructions. Under a FIDIC Contract, any change to add or omit work must be made by an instruction from the Engineer under the appropriate sub-clause. You mention Sub-Clauses 51 and 52, which are from the 1987 4th Edition of the Contract for Civil Engineering Works. Sub-Clause 51.1, item (b) allows the Engineer to issue instructions to omit work, but this is qualified by the statement in brackets " (but not if the omitted work is to be carried out by the Employer or by another ...

FIDIC | Engineer's instructions | International Federation ...

RESIDENT ENGINEER'S MANUAL

Instructions tell people how to perform a process. Because processes are so common in engineering, engineers often write instructions. For example, you may have to write specifications to technicians on how to machine a drive shaft, or you may have to write a software manual for computer users on how to run a contour-plotting program.

Instructions - Writing as an Engineer or Scientist

The site engineer should possess basic knowledge about the practical construction procedures in site, along with the details of how they are planned. This idea of planning and coordination will help him to have proper execution of the activities in the site with desired performance. A site engineer is very essential for a construction project.
